The motion amended by substituting the names of C. Boyle and Joseph T. McCormick, who were lared the delegates to the State Convention 1868. Mr. Boyle was a member of the lower use last Winter, and voted and labored with friends of a Free Railroad Law on all occas. This action of the convention is a see rebuke to Senator Searight, who has hereore imagined that he carried the Democracy Fayette in his pocket. NEW YORK, June 8.—The *Herald's* Paris special (by cable) says: It was the Czar of Russia whose assassination was attempted yesterday. In the Imperial carriage were the Czar, his two sons and Napoleon Third. When the royal party was being driven through the Bois de Bologne, a young man, apparently about twenty years old, fired a pistol at the Czar, or in the direction in which he sat in the carriage. It appears the pistol had been overloaded, for it exploded, wounding the hand of the assassin. It is alleged that a person standing in the crowd threw up the arm of the wretch by a promptly dealt stroke just as he discharged the pistol. He was instantly cut down, severely wounded and made prisoner by the escort. The Imperial carriage passed on without halting. The supposed murderer is a Pole.

THE PHILADELPHIA CATASTROPHE

Thirteen Bodies Recovered from the Ruins.

Names of Those Yet Missing.

A Number of Firemen Injured.

PHILADELPHIA, June 7—Thirteen dead bodies have been taken from the ruins of Geasey & Ward's saw mill, and the search is actively progressing. The following dead have been identified: Harry Menly, Dietrich Andrews, Aug. Sweighen, John Grier, Jacob Heilman, Henry Haddock. The following are among the missing and believed to be buried in the ruins: Phillip Seager, Aug. Segen, W. R. Halloway, Mr. Geasey and Mr. Reader.

The building in which the boiler exploded was occupied by Geasey & Ward, as a sawing mill for fancy scroll work, and with the surrounding buildings, is a total wreck. It seems that the engine wanted packing, and several men were sent from the shop of Mr. William T. King, immediately opposite, to do the work. They accomplished this in about one hour and a half, and then retired. In about five minutes after, the explosion occurred. The engineer had started the engine and turned the water on to supply the boiler, and this caused the explosion. There were two boilers used to propel the machiery. Only one of them exploded. It was split from one end to the other. The building was occupied as follows: Messrs. Geasey & Ward, fancy sawyers and scroll turners, occupied the first, second, fourth and fifth stories; Messrs. Miller & Reeder, occupied the third story. They were engravers of rollers for the printing of calico. It this department a forge was used in their business. Both these gentlemen were buried in the ruins.

Messrs. Geasey and Ward had been up stairs in the mill, and a few moments before the terrible disaster they descended. Mr. Ward went into the office and escaped. His partner went into the cellar and was killed. The following injured are at the Pennsylvania Hospital: Thomas W. Jenkins, engineer, aged thirty-five years; both arms burned. James Todd, thirty-two years old, Irishman by birth, married man, shockingly bruised. George W. Clark, aged thirty years, single, severe injuries. John Cresback, a German, thirty years old, an upholsterer, severely injured. Another person was taken to the hospital, but his injuries not being severe, he concluded to go home.

A young man named Fife was run over by the Hook and Ladder truck of the Weccacoe Engine Company, in consequence of a collision with the Southwark engine apparatus. The companies had a fight subsequently.

Alexander Bernard, of the Perseverance Hose Company, was severely injured by the falling of part of the rubbush while he was assisting in recovering the bodies of the victims of the fire.

William Meyers, of the Washington Hose Company, received pretty severe injuries by a falling wall.

Bernard Kelly, of the Columbia Engine Company, was badly hurt by a part of the wall falling. James Gorman, slightly injured. David Bell, a clerk in the employ of Messrs. Geasy & Ward, had one of his ankles sprained.

THE PRESIDENT'S TOUR.

Commencement Exercises at North Carolina University—Return to Washington To-day.

RALEIGH, June 7.—The Presidential party attended commencement exercises of the University at Chapel Hill yesterday. They were escorted from Raleigh by a procession including the scholars and officers of the institution and the Governor of North Carolina. Before the war the average number of pupils was 500, but at present there are not more than one hundred. The ball given by the graduating class was attended by a portion of the Presidential party. The President's party left Chapel Hill this morning on the return trip, and were everywhere received with marked hospitality and respect, but the public demonstrations have been calm and composed as those of the North on reception occasions. The excursion has so far been pleasant to all concerned. Major General Sickles and staff and Governor Worth accompanied the party back to Raleigh. The President leaves for Washington Saturday afternoon.

PETERSBURG, June 7.—The President and party arrived at seven o'clock P. M., on their return to Washington, having been escorted hither from Jarrett's depot to Petersburg by the Mayor and a committee of the City Councils. Mayor Penwood tendered the hospitalities of city. The President, while grateful for the kindness, regretted that his public engagements compelled him to decline the desired sojourn, as business required his return to Washington. A large concourse at the hotel received the party with repeated cheers, and the President, having been called for, made a few remarks, in which he said he tried to discharge his duty faithfully. He had made conscientious conviction his courage, the Constitution his guide, and by these he would stand. He was grateful for this reception, and hoped when he again came here it would be under more favorable circumstances, with the country in peace and prosperity. He was heartily cheered.

Secretary Seward, in response to calls, remarked that they had heard from the President what he would say were he to make a speech.

Mr. Randall was required to speak, and briefly admonished all to forget the strife of the past, and smile for the future in our country's prosperity.

As long as the party remained in Petersburg they were handsomely entertained with suppers, and received marked attention. They will remain in Richmond to-night, and leave for Washington Saturday morning.

RICHMOND, June 7.—The Presidential party arrived at 10 o'clock. They were met at the depot by the Mayor and a committee of the City Council and Capt. Milward, of the Spottswood Hotel, by whom they were escorted to that hotel. A band of music performed several patriotic airs. At all stations on their way hither, many persons, notwithstanding the rain, came out to see the President, and saluted him with cheers. A very large number of persons crowded to the parlors, where the President and Secretary Seward were introduced. There was more enthusiasm than when the President arrived in the city last Monday, and the greeting far more cordial. The President made a short address to the people assembled in the parlors. He presumed that if his policy and that of the administration was not understood from the speeches he had already made, no speech he could now make would render his principles more clear. He returned thanks for the cordial reception extended by the citizens.

Secretary Seward, who was warmly received, said he was pleased with the reception along the trip, and at this city and thought the South, as well as the North, were coming to understand the mathematical axiom that the whole is greater than a part. He never favored a war until forced into it. He never desired peace without the full restoration of the Union. If Washington could be called from his grave, and the questions now in issue referred to him, he would say no confiscation, no delay in the restoration of the entire country. He did not aspire to be greater than Washington, and thanked the audience for their kind attention, when the crowd retired.

Ærial Navigation.

Special Correspondence of Pittsburgh Commercial.

MEADVILLE, June 6, 1867.

It appears that the citizens of Meadville are to witness several important balloon ascensions on Friday and Saturday of this week. Mr. Samuel Trudell has of late been engaged in completing, under the supervision of S. Thurston, one of the largest balloons ever exhibited to the public. It has a capacity of nearly 50,000 cubic feet, and a buoyancy of 3,000 pounds, when filled with hydrogen gas. Over four hundred and twenty-five square yards of cloth and nine thousand yards of thread have entered in its construction, and yet within nine days from the time the materials were purchased, this monster balloon was completed and had received eighteen gallons of oil as its first coat of varnish.

Mr. S. Trudell, the owner of this magnificent aerial conveyance, has had it constructed for experimental purposes, and intends testing with it a novel apparatus for controlling balloons. For the benefit of citizens, and for all those who wish to enjoy the beauties and grandeurs of aerial ascensions, partial excursions to the height of half a mile will be made on Friday, and also on Saturday, until 3 P. M., when Mr. S. Trudell, accompanied by Mr. Thurston, will make a grand ascension from the Diamond, in this place. Mr. Trudell also contemplates making a grand ascension in Pittsburgh in a few weeks.

Surratt's Trial to Begin Monday.

The Case of the Decapitated Mobile Officials.

Redemption of Compound Interest Notes.

Maximilian to be Permitted to Leave Mexico.

INTERNAL REVENUE RECEIPTS.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, June 7, 1867.

The Surratt Trial.

The counsel for the Government in the Surratt case are on hand and ready for the commencement of the trial on Monday. Ex-Judge Pierpont arrived to-day. Ex-Congressman Riddle, of Ohio, has completed, in connection with the Assistant District Attorney, the preliminaries of the evidence. The defense are also ready, and the only delay will be in obtaining a jury, which it is thought will take several days. There are four attorneys for the Government and two for the defense. The former are confident of conviction, and will present evidence for the prosecution far more important than that produced on the military trial of the conspirators, and which will, it is believed, clear up the hidden details of the assassination plot.

The Mobile Officials.

Ex-Mayor Withers, of Mobile, returned to the city to-day, together with other displaced officials of that city, and will, on Monday, present their case to the President. They have the evidence taken at a Coroner's inquest held in Mobile, on one of the victims of the riot there, and claim that it not only relieves the Mayor and the police from complicity in the riot, but that it shows they had made preparations to avoid it. Ex-Mayor Withers, at the breaking out of the war, was an Assistant Adjutant General in the War Department.

Redemption of Compound Notes.

The Treasury Department in the next ten days will pay out about twenty millions of currency in redeeming compound interest notes of the June issue. As the latter will be destroyed when redeemed, that amount will go towards the reduction of the public debt.

Maximilian.

The advices from Mexico to the Austrian Minister a few days ago are reiterated to-day by the reception of dispatches of an unofficial but trustworthy nature, showing that Maximilian will be allowed to leave that country.

Internal Revenue Receipts.

The internal revenue receipts yesterday and to-day exceed a million of dollars, and this amount does not include any returns from the recently assessed income tax. The new law required this tax to be levied in March, but the long delay in assessing and collecting it will put most of it into the next fiscal year, though the annual reports will place it to the credit of the year ending July 1st.

Joe Johnston.

The ex-rebel, Joe Johnston, was at the War Department to-day attending to business connected with the railroad of which he is President. It is his first visit to the Department since he left it as Quartermaster General of the army in 1861.

Grant at Headquarters.

General Grant was at the headquarters of the army to-day, having returned from West Point. His next visit will be to Gettysburg, on the 19th inst.

Washington City Councils.

The City Councils here organize on Monday next, and it is contemplated to make a well known colored man secretary of one of the boards.

The Prussian Mission.

The usual instructions have been furnished to Geo. Bancroft, our new Minister to Berlin, and he writes the State Department that he leaves direct for the scene of his mission next week.

The Condemned Fenians.

The State Department had telegraphic advices that at last all of the Fenians under sentence of death have been commuted to imprisonment for life at hard labor. None of them have been sentenced to be transported, as intimated in the newspapers.

WASHINGTON, June 7.

TEMPERANCE DEMONSTRATION POSTPONED.

The temperance demonstration, which was to have taken place to-day, was postponed on account of rain, by Maj. Gen. Howard, Chief Marshal, until a week from Saturday.

REDUCTION OF CLERICAL FORCE.

AID-DE-CAMP.

Second Lieutenant D. J. Rousseau, Fifth Infantry, is ordered to report to Gen. Rousseau as aid-de-camp.

FROM OMAHA.

Movements of the Senatorial Excursion Party—Speeches

OMAHA, NEB., June 7.—Senator Wade and party partook of a grand banquet to-night in the State House, given by the Legislature, City Council and citizens. After a sumptuous dinner, Mayor Brown gave as a toast, "Our distinguished guests," and called upon Mr. Wade, as Vice President, to respond, and in behalf of the people of Nebraska thanked him for the noble manner in which he had for over ten years battled so bravely for the interests of Nebraska.

After loud applause, Mr. Wade responded, speaking in glowing terms of the construction of the Pacific Railroad, and to which he had been devoted for years; of the bold capitalists who have willingly invested their money in this great enterprise; how he appealed to the members of the Legislature to build their new State upon the corner stone of liberty, justice and equality. [Applause.] This he believed they would do. He paid a compliment to the people of the State for their energy, enterprise and intelligence.

Senator Trumbull was called on, and in an eloquent speech, prophesied a glorious future for Nebraska, when her prairies would become blooming gardens, while the great highway to the Indies, sought for by Christopher Columbus, has been found across your fields and valleys.

Senators Creswell, Howe, Chandler, Cattell, Yates, and Mr. Covode, Geo. Francis Train, T. Seymour, Col. Worthington, Senator Thayer, Judge Lake and Col. Patrick, followed in eloquent and patriotic allusions to their native State, and the common destiny with the great west, being clasped in an iron embrace by mutual labor and enterprise.

FROM AUGUSTA, GA.

Speech of Governor Orr, of South Carolina—He Urges the Acceptance of the Reconstruction Law.

AUGUSTA, GA., June 7.—Governor Orr addressed the citizens of Anderson District, South Carolina, to-day. After reviewing the various plans presented since the close of the war for the reconstruction of the Southern States, he earnestly insisted on the acceptance of the plan of reconstruction proposed as the only means of preventing the administration of the affairs of the country passing into the hands of the ignorant and tyrant classes, and the only hope of making this country even tolerable. He showed from the census of 1860 the great preponderance of colored over white voters in the State, and the utter inability of the whites to defeat a Convention, or protect themselves whenever an issue is made with the colored people. There are 60,000 colored voters in the State, and only 40,000 whites. It is true, perhaps, there are not now as many colored men as in 1860; but it is sure the proportionate decrease has been greater with the whites than the blacks since the commencement of the late war. Governor Orr insisted upon the cultivation of the most cordial relations between the races, and the formation of no alliances with the great political parties of the nation.

FROM NEW ORLEANS.

The Governorship—Late Mexican News.

NEW ORLEANS, June 7.—Hon. B. F. Flanders, now appointed Governor, called on Governor Wells this morning at the executive office, and made known that he came in obedience to the order of Gen. Sheridan, and was ready to enter on his duties. Gov. Wells declined to voluntarily vacate the office, and protested in writing against the action of the military. Cane Presentation by Odd Fellows.

At a meeting of the Mt. Moriah Lodge No. 360 I. O. O. F., last evening, Past Grand Thos. G. Wilson, on behalf of the Lodge, presented to P. G., J. B. Williams, a handsome gold headed ebony cane, accompanied by the following remarks: "Many of the members of this Lodge who know the efficient and thorough manner in which you have always discharged the many and arduous duties devolving upon you, during the many years you have been an officer of this Lodge; the uniform kindness and courtesy extended by you to every Brother, and above all the untiring zeal with which you have ever labored for the advancement of the best interests of your Lodge, and for the universal dissemination of the pure principles of our order, have resolved that your labors deserve a more substantial and enduring recognition than any you have yet received. With this in view they have procured this beautiful cane, and having placed thereon an appropriate inscription, they tender it to you in appreciation of your many valuable services, and as a testimonial of their regard for you as a man and a brother. Allow me, therefore, in behalf of the brothers of Mt. Moriah Lodge, No. 360, to present it to you, together with their best wishes for your continued health and prosperity, and the hope that when the evening of life comes, as come it must to all, it may prove a support to your declining years." Mr. Williams, who is our very efficient Assistant Health Officer, thanked his brethren in a few appropriate words, and the pleasant assemblage adjourned.

Base Ball Matches.

A match game of Base Ball between the Allegheny and the Enterprise Clubs, took place yesterday afternoon at the Union Skating Park, Allegheny. Unusual interest was evinced in the match, as the price received for admission at the gate was to be applied to the benefit of the Monumental Fair. At four o'clock about five hundred persons had congregated in the park, and the playing commenced. The match, as far as it progressed, was well contested, and at dusk only four innings had been played, the game standing: Allegheny, twelve runs; Enterprise, nine. The Enterprise then commenced the fifth inning, and when one man was out and only two runs required to tie, the Allegheny stopped playing. The Umpire then gave his decision in favor of the Enterprise. The result was not satisfactory to either club, and considerable excitement followed the announcement of the decision, which will probably end in another match. About one hundred and fifty dollars was netted, which will be handed to the Treasurer of the Fair.

A match game of base ball was played on the West Common, Allegheny, on Thursday, between the Active Club and the Relief Club, resulting in the success of the former. Following is the score:

The Irish Delegation.

A number of our citizens, especially those of Irish birth, have been anxious to know when the Irish delegation to the Presbyterian churches in this country, would reach this city. We are pleased to be able to inform them that a telegram from George H. Stuart, Esq., to one of our citizens, says that the delegation will arrive here to-day. The delegation consists of the Rev. Dr. Denham, of Derry, and the Rev. Dr. Hall, of Dublin. Dr. Denham is a noble specimen of a patriarchial clergyman. His theological ability and his great power as a controversial writer long ago placed him among the very first man of his native land. Dr. Hall is a much younger man, but his fame as a preacher is such that he is often called "the Spurgeon of Ireland." Dr. Denham will preach to-morrow morning in Dr. Jacobus's church, on Smithfield street, and in the evening in the church of the Rev. Col. J. B. Clark, D. D., corner of Stockton Avenue and Sandusky street, Allegheny. Dr. Hall will preach to-morrow morning in Dr. Howard's church, on Penn street, and in the evening in the Rev. E. E. Swift's church, Beaver street, Allegheny. No doubt many of our readers will seize this opportunity to hear these distinguished ministers of the gospel.

BAPTIST ASSOCIATION.—As will be seen by a notice in our columns, a meeting will be held this morning in the Union Baptist Church, on Grant street, near Sixth, of representatives from the Baptist Churches in this vicinity, composing what is called the Pittsburgh Baptist Association. A sermon will be preached by Rev. Mr. Dickerson, pastor of the First Baptist Church, of this city, and the balance of the day will be devoted to the reading of letters from the different churches, giving a statement of their progress during the past year. Sunday afternoon a mass meeting of Sunday School scholars, of all the Baptist churches of the city, will be held, when stirring addresses from several eminent divines and laymen, may be expected. The meetings will all be held in the Union Church, and will be of general interest, and the public are cordially invited to attend.

BOY MISSING.—In last July a boy named James Jones, aged ten years, left the residence of his mother, Catharine Jones, living on High street, for the purpose of seeing a boat race. The last seen of him was on the day of the race, when he was observed crossing the Monongahela bridge without a covering on his head. His mother ever since has been almost distracted about him, and any person who can forward any information concerning him will confer a great favor upon her. City papers will please notice.

ANOTHER OF OUR CITIZENS OFF TO EUROPE.—William Carr, Esq., one of our prominent Liberty street merchants and a resident of East Liberty, left last evening for New York City, from whence he sails to Europe on the Scotia. Mr. Carr will visit all the prominent points on the continent, and throughout Great Britain and Ireland. He will be absent some four months.

DERANGED WOMAN.—Yesterday afternoon a German woman named Magdalena Obenhauser, who is evidently insane, endeavored to throw herself in front of a vehicle which was passing along Market street, and would have been run over had she not been rescued by officer Mooney, who happened to be on hand at the time. She was taken to the Mayor's office, where she will be detained until the arrival of her friends.

DAMAGES AWARDED.—The viewers appointed to assess the damages sustained to the congregation of St. Peter's Catholic Church, Allegheny, by the taking of a portion of the church property, at the corner of Anderson street and Church avenue, for the use of the Western Pennsylvania Railroad Company, have concluded their labors, and awarded $8,500 to the congregation.

Public Amusements.

ACADEMY OF MUSIC.—Mrs. Lander was greeted last evening by a large and fashionable audience, nearly every seat in the dress circle and parquette being occupied. Her impersonation of "Charlotte Corday" was received with marked favor, the performance being of the highest artistic excellence. Her recitation of Buchanan Read's poem, "Sheridan's Ride," was the gem of the evening, and aroused the audience to the highest enthusiasm. Mrs. Lander will conclude her engagement this evening, when she will repeat the performance of "Charlotte Corday."

This afternoon at the fashionable matinee, the romantic play of "Jessie Brown, or the Relief of Lucknow," Annie Waite appearing as the heroine, will be performed.

HARRY OVERINGTON'S NIGHT.—It will be borne in mind that the energetic and always courteous Treasurer of the Opera House, Harry Overington, will take a benefit this evening. This will also be the last night of the season, as well as the last appearance of many familiar and popular faces behind the footlights of the Opera House. The bill of attractions will be found elsewhere, and it comprises a series of performances that cannot fail to please all tastes. It is unnecessary to rehearse the worthy beneficiary's claims upon the amusement-loving public. Attentive and obliging to all the patrons of the Theater and Opera House during his connection with those establishments, he has made hosts of friends, and no enemies worthy of consideration. It will be strange, indeed, if the house is not occupied in every part this evening.

This afternoon, the last matinee of the season will be given for the benefit of J. L. Gossin, a clever young actor, when the moral drama of "Uncle Tom's Cabin" will be performed.

COURT PROCEEDINGS.

COURT OF QUARTER SESSIONS.—Before Judge Mellon.

Yesterday morning the case of Frank Ray, charged with committing an aggravated assault and battery upon Mrs. Crossland, was resumed. The jury retired about eleven o'clock, but had not agreed upon a verdict at adjournment.

Mrs. Crossland was next arraigned on a charge of assault and battery, preferred by Mrs. Ray, wife of the previous defendant. The prosecutrix, however, failed to make out her case, and the jury rendered a verdict of not guilty, each party to pay one-half the costs.

Hester Wilson, the proprietress of a tavern in Union township, was tried on two indictments for selling liquor without license and selling on Sunday. A verdict of guilty, with a recommendation to the mercy of the Court, was rendered on both charges.

C. Buckley was found guilty on an indictment for the larceny of clothing, when his counsel made a motion for a new trial.

Henry Stebel, proprietor of a tavern on Chestnut street, Allegheny, was arraigned on three charges—one for selling liquor on Sunday, one for selling liquor to minors, and one for selling liquor to intemperate persons. The cases were tried together, and had not been concluded at adjournment.

DISTRICT COURT.—Before Judge Williams.

First National Bank of Philadelphia vs. the Wooldridge Oil Refining Company. This was an action to recover $13,632, the amount of a note drawn by defendants and discounted by plaintiffs. The note was dated, December 15, 1865, and was made payable ten days after date. On the day following the note was delivered to Benjamin Hallowell, agent for Peter Wright & Son, in payment of a claim of the latter. The note, which was signed by the Directors and endorsed by the President of the Company, was allowed to go to protest, and the present action was brought by the bank to recover the amount. The defense alleged that the note was not a negotiable one, and had been altered by inserting the words "order of," without their knowledge or consent. They further claimed that the firm of Peter Wright & Son was indebted to the company the sum of $2,500. The case went to the jury at three o'clock, and the Court adjourned until this morning at nine o'clock.

UNITED STATES DISTRICT COURT—*Bankruptcy Branch.*—Before Hon. Wilson McCandless.

Yesterday, Samuel E. Woodruff, Esq., of Erie, Nineteenth Congressional District, and John Brotherline, Esq., of Hollidaysburg, Seventeenth District, whose appointments by Judge Chase as Registers in Bankruptcy, had been confirmed by Judge McCandless, filed their bonds and took the oath of office.

In answer to a telegraphic dispatch forwarded to Washington by S. C. McCandless, Esq., Clerk of the U. S. District Court, a letter has been received informing him that the Bankruptcy forms are not yet ready for publication, owing to the large number of changes which have been made by the Judges of the Supreme Court.

He started to go out, when Caroon came from behind the bar and kicked him out. Caroon was arrested and held in three hundred dollars bail for a hearing to-day. He says that Gallagher wanted to sell him obscene pictures, when he at once ordered him to leave, and refusing to do so, he ejected him without using any undue violence.

[Before Mayor Morrison, of Allegheny.]

BREACH OF THE PEACE.

Officer Peter Bolster, constable of the Third ward, Allegheny, lodged a complaint against two men named James Maratta and Louis Bernhardt, for breach of the peace. Deponent alleges that the defendants were acting very disorderly in the store of F. Warrants were issued, but the accused have not yet been arrested.

[Before Justice Ammon, of East Birmingham.]

Mary Ann Smith, charged on the oath of Henry Bauerman with keeping a disorderly house, had a hearing yesterday morning, when she gave bail for her appearance at Court.

Mary Cairns made two complaints before Alderman Thomas against one Elizabeth Adams, for assault and battery. The alleged offense was committed about a week ago.

A BEAUTIFUL "CHICKERING."—That our rural districts are rapidly filling up with the appliances of refinement and taste is a gratifying sign of the progress in our country of education and wealth. One of the most beautiful country spots in the vicinity of our city—that of Mrs. Nesby, on the Ohio river, below Wellsville—has just been furnished with one of those superb three stringed Chickering Square Grand Pianos, which are considered by musical authorities in this country and in Europe as the very perfection of musical mechanism. How a European traveler would stare to find such a splendid piano in remote regions of our country, the like of which can't be had for love nor money in their own land by even their kings and emperors, except they send to Chickering & Sons, Boston or New York, or to C. C. Mellor, in this city, for them.

America Ahead at the Paris Exposition.

Since the opening of the Universal Exposition in Paris, the most remarkable of all the instruments exhibited by piano manufacturers are without contradiction those of the firm of Steinway & Sons, of New York. We would never have believed that America (although already celebrated by her progress of industry) reserved for us such masterpieces in the dominion of the fine arts. The new Steinway system already in favor with the majority of the German and American makers is destined to be the preferred one of the French manufacturers as already nearly all the leading Paris makers have studied the new, excellent and fine mechanism and method of construction, and having obtained the permission of Messieurs. Steinway & Sons to adopt it, are preparing to do so. Whoever has seen and heard these pianos, must and will acknowledge that they are the only ones which unite with the prodigious sonority of their tones qualities of beauty and richness which have never been remarked in any other instruments. America may well be proud of the triumph which the Steinway pianos have achieved at the International Exposition in Paris.—*Independence Belge, Brussels.*

The Daily Commercial

SATURDAY, JUNE 8, 1867.

THE COMMERCIAL *is the largest daily paper in the State, and gives daily one-fourth more reading than any other paper in Pittsburgh. It is the only Pittsburgh paper that uses the telegraph liberally, gives full market reports, and all the news of the day.*

THE appearance in the New York market of samples of Southern wheat, and the preparations for immediate harvest in New Jersey, show that the beginning of the end—so far as short supply and high prices are concerned—is at hand. It is now evident that the harvest will be earlier than has been expected, with no abatement to the prospect of an abundant yield.

THE attempt to assassinate the French Emperor no doubt will turn out to have been the act of a crazy fool—but somehow or other crowned heads are open to such chances. The Czar of Russia, who was with the Emperor at the time—and who may have been the object of the assassin's aim—not long ago was saved from the fatal result of a similar manifestation of the affection of one of his subjects, by the interposition of a peasant, who became a prince—or something of that sort—for the friendly turn.

THE inveterate force of habit keeps some people grumbling and groaning about the financial condition and prospects of the country. In default of the past and present, the future is a prolific source of fears. This time, certainly, the predicted ebbing of the fiscal tide was to commence. Even the Secretary, who ought to have a correct judgment, predicted a probable pause, if not a retrogression in the reduction of the debt. But when the figures come from the books a $5,000,000 reduction is exhibited for the month. That will do, for the hard times and a great crisis, very well.

IF we understand what is meant by works of supererogation—the doing of more than is required—Mr. GREELEY'S bailing of DAVIS must come under that designation. It does not, at any rate, appear that that work was required of him. And we imagine that at this hour, he would dispose of the political mint made in the transaction at a moderate rate. So probably would the few experimental and [illegible] journalists, who, though lacking courage to approve the act squarely, have justified Mr. GREELEY.

DRACO was a stern legislator, but in the anarchical condition of the Athenians when he performed the office, a code less severe would have been of little value. Its happy effect in restoring order and government was attested by the gratitude of the people. It was somewhat different from some of our modern statutes, for it imposed the penalty of death for almost every offense. We have often thought what consternation would take possession of a large class of young men if the laws of DRACO were put in force among them, making idleness a capital crime. But the severe code of DRACO was transient. The wiser laws of SOLON superceded it. This second legislator of Athens evidently saw the true principle of legislation, for in promulgating his code, he said, it was not the best possible system of laws, but the best the people were capable of. Then, as it is still, the people were, in a popular government, responsible for the defects of the laws, and then, as still it is, however defective the laws, they are somewhat better than the people.

THE action of the Western Union Telegraph Company, looking to the transfer of all its lines to the Government, is very important. With the provisions of the law under which the action has been taken we are not familiar, but we presume the acceptance of the offer is optional with the Government, and therefore the action of the company does not, necessarily, mean a change. We will say, however, that we hope it will lead to one. In both France and England the telegraphic postal system is about to be inaugurated on a large scale. It is the growing idea, wherever telegraphy exists, based on the "eminent fitness of things."

The Western Union Telegraph Company extends over a vast territory, and is necessarily a monopoly, rather unwieldly we imagine, besides harrassed with internal difficulties. The stock for some time past has been on the declining scale. Rival lines, whose unwatered stocks confer advantages, threaten competition, and it is not improbable that it has been found that to retain the monopoly of the business, will be as difficult as to make money in the present expanded capital and furnish the public with the cheap telegraphing it is bound to have. Whether or not anything like this is behind the offer is not necessary to know; whatever is the fact, we hope the offer will be favorably considered by the Government, and that no opportunity will be lost to inaugurate cheap telegraphing.

IT is evident that General SHERIDAN is not so much impressed with the speedy coming of the millenial day as Mr. GREELEY or Chief Justice CHASE. And SHERIDAN seems to see things through about the same sort of spectacles the other military commanders in the South wear. They, like General SHERIDAN, find frequent occasion for employing the surgery of military law, while Mr. GREELEY dreams that the time is at hand, if it has not already come, when there will be no necessity for its use; and Mr. CHASE talks as though he thought so too. These military commanders are not fanatics—not even Radicals, in fact; but men charged with the work of carrying out the laws of Congress, enacted in the interest of loyalty and for the gathering of the fruits of the war. No class of men know so well how to detect a purpose or a spirit antagonistic to these laws so readily as they who fought the war through and were in at the death of the rebellion. What their views of the probable nearness of the millenial period are may be inferred from their acts and orders. Gen. SICKLES has found it necessary to issue stringent orders; Gen. POPE is similarly situated; Gen. ORD is not particularly jubilant, and Gen. SHERIDAN has his hands more than full. These things are more significant of the actual state of things in the South than the opinion of any man or a dozen men, based on casual observation.

IT is to be hoped that the friends of sobriety did not omit to read carefully the charge of Judge MELLON to the Grand Jury now in session. Devoted, as it was, almost wholly to an exposition of the License Laws, little more is needed, it would seem, to stimulate the friends of good order to the prompt and energetic performance of their part in securing their enforcement. According to Judge MELLON'S elucidation of them nothing is more certain than if the present laws are even moderately enforced, nearly everything sought for by the friends of temperance, short of absolute prohibition, will be obtained. They make liquor selling an extremely perilous business, and it would seem that the keepers of by far the larger class of liquor drinking places—if the laws are not suffered to fall dead—will prefer to abandon it to running the risk of the penalties by way of fines and damages that are liable at any moment to come crashing down upon them. Whether these laws will be suffered to fall dead or be enforced like other laws, depends, as Judge MELLON intimates, in a large measure on the community itself—and it is just here supporters of temperance—and who is not one?—have a field in which they can operate to some purpose. Who sells to habitual drunkards—to minors and apprentices without permission—to husbands or wives after having been forbidden—who is liable for the damages resulting from drinking? It is true it is the duty of the officers of the law to answer and see that the penalties are inflicted; but it is well known they seldom do this duty. It is the privilege—not to say duty—of every citizen to assist; and who that realizes the indescribable consequences—every day and hour increasing—will not? More or better laws could scarcely be asked for. Let the ones we have be inforced, and the community will feel their good results at once.

WHAT IS THE MATTER?

In asking this question at the head of an article, we do not consider ourselves pledged to answer it, in the article itself. That something is wrong in the condition of society is a declaration that, at any time, may be made without the least danger of trespassing on the domains of truth. But what the wrong is, or what is the specific cause of evils deplored and complained of, it may nevertheless be difficult to define.

The insecurity of human life, in this country, of late years, has engaged the notice of everybody. And it has excited the alarm of many, both for individual safety and for the credit of society. Where life is unsafe in any community, no material advantages will reconcile a person to a residence there. The frequency of homicide, of late years, in our country, has led many to inquire for the *cause of it*. And the investigations have naturally led to a consideration of the laws for the protection of life. These appear to be all right—sufficient in other lands, and in our own, formerly, to answer usually the end contemplated. As to the judicial administration of them, the conclusions have not been so satisfactory. Delays, evasions, and legal niceties so often succeed in frustrating the ends of justice, that in any given case a culprit may hope to escape either the trial, or conviction if tried, or punishment if convicted.

In some localities where this condition is most apparent, the defect of administration is attributed to the influence of popular election in introducing unworthy and incompetent men into the judicial office. That the same consequences do not follow in other localities, where the office is elective, is not an offset to the cases of official delinquency. So far as known to us, we have no occasion to be opposed to the election of judges here, but quite the reverse; but in New York city it is complained of as a fruitful occasion of crime, through the uncertainty and difficulty of executing the laws against it.

But whatever is the cause, and it should be sought for until found and remedied, the frequency of capital crimes—to mention no others—is such as to create just alarm in the bosoms of all good citizens. The value set on human life, by some criminals and murderers at large, is so extremely low, that persons little above absolute destitution would be in danger if exposed to their murderous hands. The demand is, therefore, loud and imperative for a strict and stern administration of justice. And every good citizen is bound, by his solemn obligations to society, to give his voice and his efforts on the side of law, justice and good government.

TICKLING AND SCRATCHING.

Flattery and [illegible], the one to cajole and the other to frighten, are mighty agencies in political circles. Thou shalt flatter thine own side and abuse thine opponent, is one of the laws of party life. Hence, many a conspicuous politician is better known by the character of those who flatter and of those who revile him, than he is by his own acts, and can be more accurately judged by the former than the latter means.

This party law has usually an application of double intensity in cases of transition from one party to another. The Democrats who for loyalty sake abandoned the old and dilapidated party, have, ever since, been railed at with a double relish by their former co-partisans. STANTON, BUTLER, HOLT may be taken as examples. On the other hand, if a Republican show any weakness, indecision or caprice, that encourages a hope, even a feeble one, of his defection from his party, he becomes, at once, an object of attentions, eulogies and flatteries. The President affords a remarkable example, illustrative of this. In the course of a few weeks after his occupation of the Presidential chair the process of cajolery began. The New York *World*, after spreading the path of poor ANDREW JOHNSON, Vice President, with flint stones, horse-nails and torpedoes, turned briskly around, with a face all beaming with smiles, and a tongue flowing with flatteries, to strew flowers on the road of ANDREW JOHNSON, President. The virtue and power of the expedient were demonstrated by the result, when, after a number of respectable snubbings, DELILAH had SAMPSON'S head in her lap and the fatal shears clipped off the locks in which lay his strength. Mr. GREELEY, too, will have to keep a vigilant guard set, or he will be captured by the same agency. His name, that has for years stunk in the nostrils of the South, is beginning to bear among them an odor almost saintly; and encomiums are showered down upon his head as copiously as hailstones and coals of fire have been ever since the foundation of the *Tribune*.

So regular is the operation of this party rule among the Southern press, that when the newspaper reader finds them eulogizing a public man, the inquiry arises instantly in his mind, Well, what disloyal or equivocal thing has he been doing? Or, if they pay him the compliment of peculiar abuse, What judicious movement or sentiment has elicited this testimony? This law of party life and action has its foundation in human nature, to this extent, that it is available where reason, knowledge, honor and conscience all fail to support a cause. This is all we have to say on the philosophy of it. And all we have to say of its history is, that in politics, as in religious controversy, it is resorted to chiefly and almost exclusively in those cases where argument and common sense are less abundant than passion and prejudice.

A NEW YORK letter to a Boston paper says "the city is exemplifying its old character of a clan of thieves." About election time it is heralded as the stronghold of the Democracy.

IN the Senate of Nebraska, on the first inst., the Hons. T. O. Howe, of Wisconsin, Lyman Trumbull, of Illinois, and J. Covode of Pennsylvania, being in the Senate chamber, on motion the Senate took a recess for fifteen minutes, to honor the distinguished visitors.

FOUR ocean steamships arrived at New York Tuesday, viz: the Baltic, from Bremen; the St. Laurent, from Havre; Helvetia, from Liverpool, and Columbia, from Havana. The Baltic brings nearly thirteen hundred passengers, and reports three deaths and one birth on the passage. The other vessels also have a fair complement. The Baltic's is the largest human cargo received this season. Nearly all of her spare room is engaged for the next trip to New York.

NEW YORK politicians are generally in hot water. Governor Fenton and Senator Morgan do not just at present hitch well. The latter is desirous to get on the National ticket; and Governor Fenton is supposed to be somehow in the way. The appointment of copperheads to federal offices and Democrats to State positions has made trouble. It is the usual complaint; even Salmon P. Chase had a great proclivity for putting and keeping copperheads in office. It may be conciliatory, but is hardly wise.

THE *Union Free Press*, published at Kittanning, appears this week in an enlarged form, with a new head, and is otherwise materially improved. It is printed with large clear type on beautiful white paper, and is now one of the largest and handsomest weekly papers issued in the State. The *Free Press* is published by an association, the mechanical department being in charge of Mr. Wm. McWilliams, an experienced and practical printer, whose handiwork is apparent in the *Free Press* of today. It is a staunch Republican journal, and enjoys a large circulation.

THOSE lambs of the Plains, with whom General Sherman says we can have war—or not—just as we please, are again frisking about in their peculiar fashion. Of their peculiar playfulness the following Omaha dispatch speaks volumes, as the saying is:

"D. D. Ball, mail agent on the Union Pacific railroad, arrived this morning. He confirms the reports of yesterday, concerning the massacre of stage drivers, and reports the non-appearance at North Platte of the next coach due, which it is supposed may have shared the same fate. Ball also reports the loss of Jack Morrow's herd by a band of Spotted Tails hitherto professing friendship, but who have been under suspicion of treachery. All but fifteen head were recovered.

"A gentleman just arrived from the Plains, and apparently reliable, says that the Indians have notified the employees of Wells, Fargo & Co., that they must leave by the 1st of June or war would be commenced upon them."

THE FENIANS.

The Head Center and His Victims.

In the Dublin Court, on the 17th of May, three Fenian prisoners, convicted of treason, were brought up for sentence. One of them, named Kelley, spoke as follows: "There is no political act of mine I regret. I joined the association sincerely for my country'a cause, and I have been actuated throughout by a strong sense of duty. I believe that a man's duty to his country is a part of his duty to God, for it is He, that, in fact, implants the feeling of patriotism in the human breast, and who knows whether I have been actuated by any paltry ambition, and whether I have worked for any selfish ends. For the late outbreak I am not responsible. I did all in my power to prevent it, knowing that, circumstanced as we were, it would be a failure. I feel bound, in justice to myself, to say this. It has been stated on the trials that Stephens was for peace. That is a mistake, and it may be well that it should not be left uncontradicted. It is but too well known here in Ireland that he sent numbers of men here to fight, promising to be with them when the time should come. The time had come, but no Mr. Stephens. He went to France to visit the Paris Exhibition. Well, it may be a very pleasant sight, but I would not be in his place now. He is a lost man—lost to Ireland—lost to his country. I bid farewell to my friends, and all who are dearest to me. There is yet a world where souls are free, and in that world I would rather be than to live a life like this. I am proud to be considered worthy to suffer for my country, and when I am in my lonely cell, during the longings of my weary spirit, I shall not forget Ireland; and my constant prayer shall be that the God of Liberty will give her time and strength to shake off her chains."

Ritualistic Qualms in England.

The quarrels about ritualism in England are becoming even more open and bitter than ever, if possible. The last and most important outbreak reported is that which occurred at the triennial visitation of the Bishop of Salisbury at Bridgeport. There was a large attendance of clergy and churchwardens, and matters went on quietly enough until the Bishop came to speak of absolution. He then remarked significantly that the time for being outspoken had arrived, and thereupon the rector of Burton Bradstock, taking the alarm at once, stepped from his seat into the aisle, and, interrupting the Bishop, called upon "those that were on the Lord's side" to follow him. He immediately strode out of the church, followed by one churchwarden. The Bishop was somewhat disconcerted at first, but remarking that it was a court and the clergy were bound to attend it, even if their consciences did not agree to all they heard, he proceeded with the reading of his charge. He omitted what he said would occupy several hours in the reading, but before he had concluded, every churchwarden had left the church, and even the clergy were uncivil enough to show signs of weariness. In the afternoon the churchwardens held a meeting, and thirty-four of them signed an address to the Bishop, expressing the highest opinion of him personally, but repudiating ritualism in all its forms, and declaring all innovations dangerous. It does not appear what will be the result of this quarrel in the diocese.

A Sunday Race and Two Princes.

On the 18th of May, Albert and Alfred, the two Princes of England, being in Paris, and desiring to go to the Chantilly races on Sunday, the 19th, telegraphed to their mother, asking her permission, and inquiring whether it would be against the rule and precedent in the case of good young Princes of filial antecedents. The Queen made no reply, and the young men, paying heed to the old proverb, regarded silence as giving assent. So they went to the races, bet their money on the "bob-tail horse," and had a good time generally. The fact of their presence at Chantilly was telegraphed to London and published in the papers of Monday, 20th. On that day the Princes returned to London, and were present at the inauguration ceremonies of the "Royal Albert Hall of Arts and Sciences."

During a part of the ceremonies it was observed that the Queen, the Duke of Cambridge and the Prince of Wales kept up an animated conversation, and a maid of honor, who stood hard by and picked up the shreds of conversation, reports that it had reference to the aforesaid telegram.

The sequel is as follows: Late in the afternoon, an hour and a half after the departure of Her Majesty for Windsor, a special messenger from Marlborough House cabbed round the London newspaper offices with the statement which appeared on Tuesday, written on royal paper, and a request that it should be copied and prominently inserted. This statement contradicted the telegram that the Prince of Wales and the Duke of Edinburgh were present at the races at Chantilly on Sunday.

EVEN the quarrel about ritualism in England seems to have its humorous side. The Rev. James Hunt, of Northmoor Green, writing to a Bristol paper, gives the following curious defense of his own innovations:

"The services here at eleven and two o'clock have been as plain and unritualistic as possible for the last six months. Mass is sung on Sundays at 8 A. M., an hour at which all the Protestant parishioners are in bed drunk, sleeping off the effects of their Saturday's carouse. How can this interfere in any way with their liberties? So long as the old services are left in their pristine ugliness, what right have the parishioners to grumble if I give an additional service."

The reverend gentleman's labors in his parish, according to his own showing, have not been crowned with any great degree of success.

WHAT CHAMPAGNE COSTS.—The Rheims Chamber of Commerce estimates the total sales of champagne wine since 1845 at 214,145,643 bottles. This, at the average price of three francs a bottle in Rheims, amounts to the handsome sum of 642,436,929 francs, or about 128,487,585 dollars in gold. What was sold in this country cost the consumers at least three times *three francs*. It will be a matter of interest to our wine consumers to know, that according to the Rheims report, the world drinks every year some 5,000,000 bottles of champagne which have nothing genuine about them except their labels and corks, and even these are now counterfeited.

THE Judiciary Committee took considerable evidence bearing on the question of Jeff. Davis's complicity in the assassination of Mr. Lincoln. They have the originals, or certified copies, of a number of letters that reached him in 1864, wherein the writers proposed assassination, and there is nothing to show that he ever rebuked the authors or discountenanced the scheme. The testimony as to his complicity in Booth's plot is not entirely conclusive, but is so strong that at least three of the members of that committee believe his guilt to be shown. That he had dealings with Booth and his agents is beyond doubt.

THE cotton crop of the present year begins to attract a great deal of attention. A Georgia correspondent of a New York paper predicts a large crop of cotton in Georgia, and says the yield of that State may reach 500,000 bales, which is more than double the crop of last year. A Louisiana correspondent of the *Journal of Commerce* says the cotton in that State looks healthy, but is two weeks later than usual, and he can give no estimate of the crop. All the letter-writers mention that a large crop of corn has been planted, much larger than last year.

A GENTLEMAN in Cincinnati was arrested a few days ago for having knowingly rented his premises for purposes of prostitution. If the New York landlords who knowingly rent their houses for similar purposes were arrested we should witness a collection of millionaires and church trustees numerous enough to fill a moderately sized jail.—*N. Y. Commercial.*

Why not include in this list Pittsburgh, and all other large cities? The thing is a part of the "social evil" everywhere.

THE last that was seen of ex-Vice President Breckinridge, of the defunct Confederacy, he was taking sherry cobblers at one of the tables of the American restaurant in the Paris Exposition, with a couple of agents of Northern sewing machine companies. It is scarcely probable he desires bail to relieve him from such an infliction.

READ! READ! READ!

CONNELLSVILLE, PA., May 29th, 1867.
MESSRS. FAHNESTOCK & HOLTON:
Pittsburgh, Pa.

Gentlemen—This is to certify that I have been a sufferer with Chronic Diarrhœa for about eighteen months, and have tried several different remedies recommended for this class of disease, and have been treated by different Physicians, and they all failed to effect a cure. About four weeks ago I was recommended to try Mishler's Herb Bitters, and I bought one bottle and have used its contents; am happy to say that I feel myself entirely cured, and quite a different man. It has arrested the complaint, and effected, I think, a permanent cure. I must add that my case was so bad that I was prevented from attending Church for some time. I am now using the Bitters on my daughter for a disease of the blood, which arose from Diptheria, having caught a severe cold while suffering with Diptheria. You are at liberty to publish the above if you see proper.
Yours truly, H. WALTER.

FIRE WORKS.

I would be pleased to call the attention of my patrons and the public generally to my stock of Fire Works, manufactured expressly for my trade, of carefully selected chemicals, and under the supervision of the best practical Pyrotechnists of this country.

Having had my stock all destroyed by fire last year, my patrons can rely on getting Fresh Works, and for Brilliancy, Variety and Design, cannot be surpassed.

In addition to the Long Stick Rocket in common use, I offer the PATENT SHORT STICK ROCKET. They are put up in wooded boxes, one dozen each. Can be transported with perfect safety, at much less expense than the old style, and will ascend at least one-third higher. They are fast superceding all others.

I have also the new IRON-CLAD TORPEDOES, put up 25 in a box.

FILES! FILES!

THE AUBURN FILE WORKS

AUBURN, NEW YORK,

Would call the attention of manufacturers and those using Files and Rasps to the superior article of HAND CUT FILES, which they are now making from the best quality of Cast Steel, consisting of Flat, Hand, Mill, Saw, Round, Half Round, Square, Taper Saw Files, Horse Rasps, and all other kinds, which are in no respect *inferior to any now made.*

It accords neither with our taste or our principle to assert that our Files have never been approached by any other manufacturer. The Files must speak for themselves, and those who wish to purchase largely are sufficiently wise to accept the evidence of the files rather than the assertion of the manufacturers.

Your orders may be left with T. H. RICHARDS, Esq., 30 Fifth street, Pittsburgh, where samples of some of the principal kinds may be examined and prices obtained. Your orders will be carefully executed at the manufactory, and warranted to give satisfaction or Files returned.

We have permission to refer to the Pittsburgh Novelty Works, who are now using our work to their entire satisfaction. Under date of November 28, 1867, they say:

"The files give general satisfaction in regard to *temper and cut*. The only objection we find is, "they are cut too fine for our use. A coarser cut "would suit us better. Please remember this when "we send another order."

Also of May 6th, 1867, enclosing draft for $183 73.

"Your Files give satisfaction, and you have permission to use our name in regard to their "quality."

Please call and examine samples before placing your orders.

A DREAM OF SUMMER.

Bland as the morning breath of June,
The southwest breezes play;
And, through its haze, the winter noon
Seems warm as summer's day.
The snow-plumed angel of the North
Has dropped his icy spear;
Again the mossy earth looks forth,
Again the streams gush clear.

The fox his hill-side cell forsakes,
The muskrat leaves his nook,
The bluebird in the meadow brakes
Is singing with the brook.
"Bear up, O, Mother Nature!" cry
Bird, breeze, and streamlet free,
"Our winter voices prophesy
Of summer days to thee!"

So, in those winters of the soul,
By bitter blasts and drear,
O'erswept from memory's frozen pole,
Will sunny days appear.
Reviving Hope and Faith, they show
The soul its living powers,
And how beneath the winter's snow
Lie germs of summer flowers!

The Night is Mother of the day,
The Winter of the Spring,
And ever upon old Decay
The greenest mosses cling.
Behind the cloud the starlight lurks,
Through showers the sunbeams fall;
For God, who loveth all His works,
Has left His Hope with all.

HOME FOR THE FRIENDLESS.

Sixth Annual Meeting—Interesting Reports of the Secretary and Treasurer—Election of Managers, etc.

The sixth annual meeting of the contributors and friends of the Pittsburgh and Allegheny Home for the Friendless, was held Thursday afternoon at three o'clock, in the Central Presbyterian Church, corner of Anderson and Lacock streets, Allegheny. The inmates from the Home were all present, and the attendance otherwise was large. Rev. Thomas X. Orr, pastor of the Central Presbyterian Church, presided, and opened the meeting with prayer. The audience and children then joined in singing "Blessed Jesus," written by Mrs. Dr. McLaren.

Rev. John McMillan, pastor of the First Reformed Presbyterian Church, Allegheny, then read the annual reports of the Managers and Treasurer, as follows:

REPORT OF THE MANAGERS.

The time has again arrived, when, as Managers of the Pittsburgh and Allegheny Home for the Friendless, we are called on to make a report of our doings the past year, and the present condition of our institution. It is six years since its organization, and we trust some good has been done to the children of sorrow and want, through its instrumentality. Our grateful thanks are due to our kind Heavenly Father, whose protecting care has ever been over us, and whose hand is constantly open to supply the wants of His dependent creatures. There has never been a day that we have not had food for all these little hungry children, and we think their appearance a sufficient proof that it has not been scantily supplied.

We have had under our care, the past year, 83 children; 33 of these, children of soldiers, placed with us by the State Superintendent of Soldiers' Orphans. 12 have been supplied with excellent homes in Christian families, who have promised to teach them some useful avocation of life, and train them for a life of happiness when done with this world; 3 have been returned to parents and other friends; 3 stolen by their mothers; 1 absconded; 1 soldier's boy transferred to another school, by order of Mr. Burrows; 1 soldier's boy, who has been an invalid for some time, allowed to visit his mother; 21 adults who were homeless have been temporarily sheltered; present number 73.

There have been three deaths during the year. One of these, the daughter of a soldier. She was not well when brought to us, and after an illness of two weeks, death removed her from us. Her mother was sent for, but only reached us in time to witness her interment. The other two were very young—one left motherless when only one week old. It was soon removed by a Kind Shepherd to a Heavenly Home. We are very grateful to a kind and sympathizing community for the means they have placed in our hands with which to carry on this institution. Every gift is acceptable, whether it be the widow's mite or the magnificent gift of the wealthy. We would here express our pleasure for the interest manifested in these children by the young—not in words only, but in deeds. In several instances they have held fairs, and presented as a result very respectable contributions to our treasury, and have seen these needy little ones clothed by the labor of their hands. This is an earnest to us, that the children in this Home will never lack friends, and that when we, who are now actively engaged in this work, shall have passed away, others will be ready to take our places. We are assured of the comfort of those who have been furnished homes by us. A few cases we will specially mention. Almost two years ago, a woman brought a delicate, suffering little boy to us, not more than a year old. She represented herself as a widow, with a number of other children depending upon her for support. She said she was willing to pay a small compensation for the boarding of the child. We took him, and though she professed strong attachment to her child, she never came to see him. Under our care he improved in health and appearance, and became the pet of the house. He has recently been adopted by a Christian family, who are perfectly delighted with this acquisition to their household. The adopting father says he would not take a thousand dollars for his boy. We had another interesting little boy brought to us by an abandoned mother, when only eighteen months old. He was so attractive in appearance, that we had many offers for him, but whenever a child was wanted, we felt like saying, "We cannot let Harry go." But at last, feeling assured that a *good* home was offered him, we allowed him to go to its enjoyment. After these friends had the child a few weeks, they became fearful the mother would give them trouble, or perhaps steal the child away. With these feelings they returned him to us, on a Saturday. Till now they did not know how much they loved him. The next day, Sabbath, found them at the house of one of the reception committee, begging to be allowed to take the child, saying neither of them had eaten or slept since they had returned him to the Home. The child gave equal manifestations of attachment to them. An older brother of this child, W. D., was placed in a respectable family in the country; they are much attached to him. He has visited the Home since he left, and his rosy cheeks, and sparkling eyes give unmistakable evidence of his health and happiness. We might give many such cases, but it is not our design to extend this report farther than to give to those that support this institution some idea of its practical workings, and what is needful for its future prosperity.

When we took possession of the premises we now occupy, we felt happy and thankful that such accommodations had been provided for us; but experience has taught us that in many respects they are not suitable for the purpose. The proximity to the railroad is a serious objection; the house itself is inadequate for the accommodation of all that we should receive, and the grounds are insufficient for the exercise and amusement of the children. It has been the wish of the managers for some time to sell the building and lot which we now occupy, and purchase a few acres near the city, on which we could erect suitable buildings, that the children might have many advantages of which they are now deprived. The means that would be obtained from the sale of our present property would fall far short of making this desirable change. But are there not liberal persons of wealth in this community, that would esteem it a *pleasure* to extend a helping hand in this good work? A kindred institution, in our own city, has just entered a magnificent building, adapted in all its arrangements, to the purpose for which it was intended, this in *part*, from the legacy of a friend to the poor and needy. Will not some one that feels himself to be a steward of his master, while he lives, follow this good example, and thereby receive the approval of the Divine Master, and the blessing of those that were ready to perish? As managers we are much interested in all that pertains to the welfare of these children and try to have them instructed in those things that will qualify them for the discharge of the daily duties of life.

The day school is at present under the charge of Miss Blair, and we look for improvement under her discipline and instruction. The Sabbath School is regularly attended, averaging about sixty scholars. Our aim is to instill into these young minds Bible truths, and to impress upon them the duty of loving the Savior while they are young. Many appear interested in these exercises, and we hope the labor is not in vain. We gratefully acknowledge for this school a recent donation of books and publications from the Fund, which will stimulate the children to study, and be a source of profit and pleasure to them. By the kindness of Sunday school children and other friends they are frequently supplied with papers, which they enjoy very much.

We still have the services of Dr. R. B. Mowry gratuitously, for which we are grateful. We are under many obligations to the clergy and other friends of both cities, for the cheerfulness and promptitude with which they have responded to our demands upon their time and patience in speaking to the children on Sabbath afternoons. These acts of kindness will not be lost. To the proprietors of the Pittsburgh COMMERCIAL and *Gazette*, we return our thanks for their kindness in inserting notices, and advertisements free of charge. Also, our thanks are hereby tendered to Mr. W. G. Johnson, for printing gratuitously the Annual Song of Greeting.

We thus bring our report to a close, asking and not doubting that "The Home for the Friendless" may during the coming year, share the contributions as well as the prayers of all who have

"A heart at leisure from itself
To soothe and sympathize."

Respectfully submitted in behalf of the Board,
MRS. S. A. TREVOR, Secretary.

The Last Shooting Affair in Washington, Pa.

Our Washington correspondent "J. S. S." sends the following particulars of the shooting affair that occurred in that borough Thursday, and mentioned in this paper yesterday:

"Another shocking accident occurred in this vicinity to-day, the particulars of which are as follows: Four young colored men of this place, by the names of James Bryan, Samuel Adams, Mack Anderson and Nat Galliher, went out into the woods adjacent to the town to hunt squirrels. Bryan shot at a squirrel on a tree and wounded it. It fell to the ground and took refuge in a log. Bryan ran towards the log, and at the same time Adams raised his rifle to shoot. Bryan cried out not to shoot. Adams immediately lowered his gun, and endeavored to lower the hammer, but it slipped through his fingers with such force as to cause the discharge of the load, which took effect in the right breast of Bryan, and caused his death in a few minutes. Adams came to town and offered to give himself up, but the authorities would not receive him, as they are fully satisfied that the occurrence was purely accidental."

CITY MORTALITY.—The number of interments in the city for the week ending June 2, 1867, as reported by Dr. A. G. McCandless, Physician of the Board of Health, was fifteen. The causes of death were as follows: Consumption, one; suicide, one; disease of liver, one; cancer, one; syphilis, one; still-born, four; small pox, one; disease of lungs, one; pleuritis, one; disease of stomach, one; congestion of brain, one. Of the above there were: Under one year, four; from one to two, three; two to five, one; fifteen to twenty, two; twenty to thirty, two; thirty to forty, one; forty to fifty, one; sixty to seventy, one. Eight were males, and seven females. All were white.

BATHING IN THE RIVER.—Since the advent of the warm weather, a large number of boys have been enjoying themselves by bathing in the rivers during the day, contrary to city ordinances. Yesterday afternoon the police were notified that a crowd of young lads were swimming in the Monongahela, near the Brownsville landing, when a descent was made upon them and five of the number captured and conveyed to the Mayor's Office. After being locked up for a few hours, they were released upon the payment of small fines.

AQUATICS.—Patrick Doyle challenges Robert Thompson, a member of the Irwin Boat Club, to row a scull race, distance three or five miles, for a purse of one hundred dollars or upwards, at any time agreed upon. The challenger can be found at Hugh Sallie's, on Water street, any time within two weeks.

Arrangements have been made for a double skiff race to take place on the 15th inst., between the hours of six and seven o'clock, P. M., for a purse of fifty dollars, between Wm. Adams and Joseph Gallinger, and Mike Williams and "Buck" Shaver, crack oarsmen of the Fifth ward. The race will be rowed over the Allegheny course, from the Mechanic Street Bridge to the St. Clair Street Bridge, and return. The respective crafts are designated as "Blood Tub" and "Water Biscult."

AWFUL DEATH.—The Johnstown *Tribune* of yesterday says: "Just as we go to press we learn that during a friendly scuffle yesterday morning in the rolling mill, between several young men, one of them, named Leopold Haiser, was pushed against a revolving wheel and his head almost severed from his body. He was nineteen years of age, unmarried, and a resident of Conemaugh borough."

INDIAN HERB DOCTOR.—DEAR SIR:—I wish to inform you and the public that I have been afflicted for many years with a disease of the blood. I had the advice of our first physicians, without experiencing any benefit. Seeing your testimonials, I determined to make a trial of your vegetable medicine. I have experienced the greatest relief, and feel almost cured. Yours respectfully,
JAS. SWEARINGEN, Engineer on the Pan Handle Railroad.

The Doctor's office is 194 Liberty street.

Let Merit be the Test of All Things.

No medicine was ever introduced to the American public that has created such an astonishing demand as Mishler's celebrated Herb Bitters, now generally adopted throughout the country by the medical faculty in their ordinary practice, and used in thousands upon thousands of families where its marvellous health restoring and invigorating virtues have called forth untold wonder and admiration. It has stood the most astonishing tests ever required from any medicine known to the present generation, and its merits alone have secured to it the unbounded confidence of the whole medical fraternity, and the praise of suffering humanity everywhere throughout the land. What untold blessings have been showered upon the head of Dr. Mishler cannot be estimated nor revealed for introducing this wonderful curative and preventative of disease. In another column our readers will find the advertisement of Messrs. Fahnestock & Holton, agents, No. 26 Market street, together with a specimen of home testimony from a well known citizen in favor of Mishler's Herb Bitters. It is sold by all druggists.

HERBST'S ORDINARY.—We take pleasure in calling the attention of our readers, and the public generally, to the advertisement of Mr. Herbst, (in another column,) who will open on next Monday morning, new, well arranged and finely fitted up dining, lunch, coffee and ice cream rooms for ladies and gentlemen, at No. 64 Fourth street. Mr. Herbst will serve up morning lunches from six to eleven o'clock A. M., and dinner from eleven to half-past two o'clock, daily. Dishes to order. Ice Cream and Refreshments until twelve o'clock midnight. Particular attention will be paid to the wants of all who desire a comfortable meal, &c. This is just the place that Pittsburgh has long required, and we hope that its enterprising and experienced proprietor will receive a hearty and liberal support.

"Shine out litte head sunning over with curls,
To the flowers, and be their sun."

There is noting more intrinsically beautiful in the natural adornment of the human form than a fine head of hair. Without it even the most comely features are almost repulsive, and the plain becomes positively ugly. Grey hairs, although accounted an honor to the old, have never been so considered with respect to the middle aged and the young. Too often it is looked upon as a result of dissipation; yet many of the latter are innocently afflicted by these misfortunes, which they could easily remedy by a use of the proper means. "Barrett's Vegatable Hair Restorative," one of the finest articles for toilet use will effectually prevent and cure baldness, grey hair, and almost all diseases of the scalp. None should be without it.

DON'T FAIL TO READ THIS!—We have just read a number of *bona fide* testimonials from prominent merchants, business men, professional men and others, on the subject of Higgins's Honolulu Hair Regenerator, and all agree that it is one of the greatest wonders and blessings of the age. We can add our own endorsement of its great virtues for improving the hair. We consider it not only good, but we think it is the *best* that ever fell under our notice. It contains no poison, is purely vegetable, and is warranted to turn Gray Hair to its original color (it is not a dye), will certainly cure Baldness, from whatever cause and at whatever age, will stop the hair from falling off, cleanses the scalp of Dandruff and Disease, imparts a gloss and beauty to the Hair both pleasing and permanent, is Nature's own perfume, and is a speedy and effectual cure for the Nervous Headache. As we learn, the formula for its preparation was obtained from a Turkish Nobleman by Mr. Higgins's (the proprietor's) brother, formerly a resident of Honolulu. For sale by all druggists. REMEMBER—That Sickness at the Stomach, Pain between the Shoulders and in the Right Side, Yellow Suffusion of the Skin, Costiveness, Drowsiness and Languor, Dimness of Sight, Colic, Palpitation of the Heart, Dry Cough, Low Fever, and other symptoms which indicate the various phases of Acute and Chronic Liver Complaint, are, one and all, promptly relieved, and finally removed, by the action of that famous preparation HOSTETTER'S STOMACH BITTERS, which is at once the best of correctives, the gentlest and most genial of aperients, an infallible regulator, and a powerful restorative. Persons of a bilious habit, who use the Bitters as a protective medicine, will never suffer the pains and penalties of Liver disease or Bilious Remittent Fever. —The Assistant Treasurer at New York is prepared to redeem the Compound Notes maturing June 10, with interest up to that date. About $8,000,000 of these notes are outstanding, which, with interest added, will create a total demand on the Treasury of about $10,000,000. A portion of this will be paid in bank currency, which, however, can scarcely be expected to prevent the banks from presenting the notes, as each bank will rely upon its ability to get rid of any surplus of that form of currency. The effect of the redemption of the notes will be to add about two millions, the amount of interest, to the supply of currency in the banks. If the Treasury should make the payment to a large extent in bank notes, the effect may be to reduce the amount of Legal Tenders in the banks.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, June 7, 1867.

There was very little business transacted in our general market to-day. There was a little firmer feeling in the flour market, owing to the Chicago dispatches, but prices were unchanged and the indications are a still further decline in the prices of this staple.

The receipts of some of the leading articles of produce per river and rail since our last were as follows: Flour 884 bbls; apples 31 bbls; cheese 190 boxes; corn 327 sacks; barley 174 sacks; wheat 450 sacks; rye 35 sacks; oats 1,554 sacks, and butter 55 packages.

We quote as follows, which are the wholesale prices unless otherwise stated:

APPLES—There are no choice articles for sale of any consequence and prices rule very high. We quote them in demand at $9@11 ₱ bbl.

BEANS—Choice articles are in but limited supply and sell readily from store at $3 ₱ bush, and at retail at 12c ₱ quart.

BUTTER—Prices are nominal and market very dull. Choice roll, from store, may be quoted at 14@18c ₱ lb.

CHEESE—We quote W. R. at 14@16c; Hamburg, 14@16c, and Goshen 20c ₱ lb.

EGGS—Receipts are light, and the demand is also small. Those in good order may be quoted selling from store at 18c ₱ dozen.

FLOUR—There is a fair jobbing demand at the late decline. Good brands of spring wheat are selling at $11 25 to 12 50@13 00 ₱ bbl.; medium grades at $11 00 @11 50, and good winter at $14 00 ₱ bbl.

GRAIN—No reported sales of wheat, and in consequence we omit giving quotations.

OATS—We note sales of 200 bushels from store at 73c; 160 bushels from depot at 70c; 400 bushels from store and wharf at 70@72c ₱ bushel, and 300 bushels from depot at 69c ₱ bushel.

CORN—The market is drooping. Eastern buyers are not in the market, and distillers are not inclined to pay more than 80c per bushel for shelled. We note a sale of one car shelled corn, from Elevator, at 91c ₱ bushel.

RYE—The market is declining with all other kinds of grain. Offers were made for small lots at $1 60 ₱ bushel, but large lots would hardly command more than $1 55@1 60 ₱ bushel.

BARLEY—We note sales of 1 car spring at $1 12, and 1 car to arrive at $1 10 ₱ bushel.

HAY—Sales reported of 4 tons baled timothy, delivered, on the cars at $32 00 ₱ ton and 12 loads from wagon at $20 00@27 00 ₱ ton.

PROVISIONS—Sales from packers are reported of 10 000 lbs shoulders at 9½c; 5,000 lbs sides at 11½c; 5,000 lbs sugar-cured hams at 16@16½c; 2,000 lbs city clear sides at 12½c, and 12 tierces lard at 13c ₱ lb, and sales of 20 bbls mess pork at $23 00 ₱ bbl.

LARD OIL—Sales from manufacturers of 10 bbls No. 1 L. O. at $1 08@1 10 ₱ gallon.

POTATOES—Prices are declining. We note sales of 2 cars, Lake Shore, at depot, at $1 40 ₱ bushel, and 50 bushels Chili at $1 05 ₱ bushel.

Weekly Review of the Pittsburgh Pig Iron, Bloom, Bar Iron, Nail, Steel, Copper, Hardware, Lumber, Ale and other Markets.

OFFICE OF THE PITTSBURGH COMMERCIAL, THURSDAY EVENING, June 7, 1867.

Transactions in raw iron during the week aggregate but a moderate amount of business. The dull period of the season being at hand, consumers of crude iron restrict their purchases to the supply of their immediate wants.

The spring trade has proved very unsatisfactory to the merchant bar and sheet manufacturers, both as regards volume and profit of business, but now that we are almost assured of unexampled crops of our leading agricultures, a better and more hopeful feeling of the future prevails; but until these hopes are, in some degree, realized, manufactures will confine their purchase of stock to their immediate wants.

We quote the following sales:

IRON BARS AND NAILS—There is no noticeable improvement in the trade. Prices continue as last quoted. There is some talk among certain manufacturers about discontinuing operations in their mills at an early day.

STEEL—Prices remain as last quoted, and the market is very dull.

TIN, ROOFING, &C.—We have no new feature to notice in this market. Trade is very slow and prices unchanged.

GLASS—The manufactories will cease operations on the 15th inst. There is but little trade doing and prices remain as last quoted.

HARDWARE—There is still something doing in this branch of trade. The spring business has been very fair, and dealers have been generally satisfied with the amount of trade they have done. The business for the season is, however, at an end.

LUMBER—Prices remain unchanged. The trade from yards, however, has considerably improved since our last report. The two upper qualities of lumber, in yard, are getting scarce with an active demand.

There have been but few river arrivals lately and there is but little reported on the upper waters of the Allegheny. We quote prices in water ranging from $17@25 50 ₱ M, as to quality.

There are no shaved shingles of a 1st quality in market. No. 1 sawed are in but limited supply and in demand, at $8 from yards, and $6@6 50 from rafts.

There has been no change in the leather and hide market. The trade in boots and shoes continues very inactive. There is still a pretty good demand for foreign fruits. Oranges of a choice quality are very scarce. The cracker market is as last quoted. We have nothing worthy of mention to note in regard to other markets.

SHEEP SHEARING.—The farmers are generally shearing their sheep, says the Columbus (Ohio) *Journal*, and the indications are that the yield of wool will be both large and of excellent quality. We also notice that Eastern drovers are making extensive purchases of the shorn sheep. This may cause something of a rise in the mutton market.

No business of any moment is looked for before August, and, of course, Dry Goods people are quiet all along the lines. No special change in prices to report since our last weekly quotation.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather yesterday was very warm. Both rivers are declining steadily—the Monongahela marks indicating five feet eight inches; Allegheny six feet eight inches. Saint Louis freights during the week were pretty plenty. The Minnie left on Tuesday with all she could manage. The Importer left last evening loaded to the guards. The Kate Putnam was receiving a large lot for St. Louis. The Belle came in from Cincinnati with a good trip. She returns to that port this day positively. The Urilda has been thoroughly repaired. She left for Oil City last evening. The Robert Moore left Portsmouth on time with a good trip. The Leni Leoti, for Parkersburg, had a fair trip. She will be followed this day by the side wheeler Grey Eagle. To persons going that way a fine opportunity is offered. The Kate Putnam is fast filling up for St. Louis. She will have dispatch. The Columbia is receiving for Cincinnati and Louisville. The Importer had four hundred and twenty-five tons freight and twenty-eight passengers. Pilots, A. Crain and James Whitten. The following towboats came in since our last: Lion, Bengal Tiger and Fearless. The river is too low for towing purposes. The Belle Vernon will follow the Putnam to St. Louis. The Putnam will take Missouri River freight, also St. Paul freight.

THE steamer Emma No. 2 is advertised for sale at New Orleans.

THE steamer Armadillo left Cincinnati for this port on Wednesday, in search of a trip.

THE Wild Duck and barges were due at Cincinnati yesterday, on the way to Pittsburgh.

THE towboats Lion, Fearless and Bengal Tiger have arrived.

THE first boat due is the Kate Robinson, from St. Louis.

BOATS IN PORT—R. C. Gray, Delaware, Belle Vernon, Kate Putnam, Grey Eagle, America, and Belle.

LOUISVILLE.—The towboat Neville sunk a barge containing fourteen hundred barrels of Kanawha salt on the falls on Tuesday.

CAPT. GEORGE D. MOORE is building a fine side wheel steamer for the Pittsburgh and Parkersburg trade. She will be completed for the fall trade.

PITTSBURGH boats passing Cairo on the 5th:—Glasgow for Pittsburgh, Maggie Hays for St. Louis, and Robert Fulton for Orleans. The latter a tow boat.

CAPTAIN DAN ABLE will send the steamer Centralia to Fort Benton with the duplicate trip of the sunken steamer Nora.

SPECIAL NOTICE.—The fine packet Belle, Captain Laughrey, takes her departure this day at noon for Cincinnati and way points. Passengers and shippers can rely on this.

PARTICULAR NOTICE.—The Kate Putnam, Capt. Lightner, is announced for Cairo and St. Louis. She will also receive Missouri river freight. Any business entrusted to this boat will be carefully attended to.

CAPT. GEORGE W. REED'S fine packet Columbia is announced for Cincinnati and Louisville on Saturday. To persons going that way a fine opportunity is presented. Capt. Russell does the honors in the office.

A NEW and handsome ferry boat, named Keokuk, came in from Brownsville. She was built by Messrs. Snowden & Sons, Brownsville, and is a credit to all concerned in getting her up.

THE fine packet "Kate Putnam," Capt. Lightner, is announced for Cairo and Saint Louis on Saturday. This boat is well found in every respect and is in charge of careful and attentive officers. Our old friend James Young has charge of the office.

THE fine packet Belle, Capt. Laughrey, takes her departure for Cincinnati on Saturday, positively. This boat makes her trips with great regularity, and is a large favorite with passengers and shippers. The first clerk is our old friend Capt. J. W. Chambers, an experienced and attentive officer and clever gentleman.

THE fine side wheel packet Grey Eagle, Capt. Brennan, leaves this day at noon for Parkersburg and intermediate points. This boat has the best of accommodations, and is in charge of careful and attentive officers. Our old friend "Fred" keeps the best of cigars and nice cool lemonade.

CAPT. JOHN B. DAVIS has purchased the steamer Rowena, at Cincinnati, for $21,000. Capt. Davis will change her boilers and refit her throughout for the White River and Memphis trade, to ply in connection with the Commercial.

JEFFERSONVILLE, June 5.—7 P. M.—EDS. COM.—River falling slowly. Wind east. Clear and warm. Thermometer 86 degrees. The tow-boats Mary Ann and Shamrock passed up. The Camelia, Melnotte and Charleston came down. The Minneola passed up.
D. M. DRYDEN, Falls Pilot.

SUIT DECIDED.—The suit between the owners of the steamer Roanoke and the Underwriters for the recovery of the insurance money—which has been pending in Court for the past two weeks, was yesterday decided in favor of the owners of the boat. Full particulars will be found in our Court report. We find the above in the Cincinnati *Gazette*. The amount awarded the Roanoke owners was $7,071 35.

THE steamer Lorena left St. Louis on Wednesday for this port. The steamer Glendale was to leave on Friday with the following cargo: 150 tons metal and 150 tons iron ore for Pittsburgh, and 200 tons iron ore for Steubenville, 150 green hides, 90 barrels flour, 104 cases assorted preserves for Pittsburgh, and 50 sacks peanuts for Cincinnati.

EASILY SATISFIED.—"We may be happy yet," if the Louisville *Democrat*, whose name appended to a soap advertisement the other day, offered to let the fellow off provided he sent him a chunk. Now if we were in his place we would do no such thing—nothing less than a box would satisfy. In fact we'd like to ante up we would *prosecute* him with a piece of poetry—this would bring him to terms.

A MODEL CREW.—A boat which recently made a trip of 320 miles up the Missouri, had among her passengers a number of ministers and citizens of Saline county, Mo. Before leaving the boat they passed a vote of admiration of her crew. They embodied in the resolution these words: "Not an oath nor a profane word have we heard; not an immoral act have we seen during the trip of the steamer."

FLOOD IN THE WABASH.—The New Harmony *Register* says the Wabash river at this point during the past week has been rising at a rapid rate, and at present writing being bankfull and in fine navigable condition for first class boats. For a time, serious apprehensions were entertained in the minds of our farmers in the low lands, of an overflow and destruction of the planted corn.

THE Louisville *Democrat* on the situation: The river business in this locality seems to have been whittled down to the small end of nothing during the past month or two. The boats, "one by one, are passing away," and the steamboatmen are looking blue as indigo and sad as pall-bearers. We don't know what is the matter. The Louisiana came in from New Orleans yesterday. The Captain came up town from Portland, took a look around and pulled his hat down over his eyes, went back to the boat, backed out, and is no doubt at Evansville this morning taking on a load of corn in the raw. We suppose there will be better times when the "craps" are gathered. Ours is not the only city troubled with the "blues." Cincinnati, Pittsburgh, Cairo, Vicksburg, Memphis, New Orleans and Madison have "caught it" badly.

OF the situation at Cincinnati, the *Gazette* has the following: The river continues to recede. During the 24 hours ending at 6 o'clock last evening, it had fallen 2 feet, at which time there were 21 feet in the channel, by the water works' mark, and 7⅞ feet space under the bridge. The weather yesterday was the hottest of the season. No breeze was stirring to annul or neutralize the sun's burning rays, which came down in a manner every way worthy of dog days. Hot weather has come upon us suddenly, but it may only be temporary, as the elements have been very inconsistent during the entire spring.

Business was very dull, and the wharf presented just such an appearance as might have been expected in the month of August. If there be not improvement we can but prophesy a complete stagnation of business six weeks hence.

THE recent race between the Phil. Sheridan and the Sucker State has given rise to a pretty sharpcontroversy between the respective friends of the two boats. Captain Hight, of the Sucker State, is after the Captain of the Sheridan with a sharp stick, as the following letter shows:

To the River Editor of the St. Louis Times—DEAR SIR—In your Sunday issue I saw an extract from the Burlington *Argus*, in regard to the race between the Phil. Sheridan and the Sucker State which merits notice. "Captain Hutchinson emphatically denies that the Sucker State beat the Phil. Sheridan to this place (Burlington)." He says his boat beat the Sucker State an hour to this place" (Burlington,) all of which is nothing more nor less than a wilful *lie*, as the Sucker State arrived in Burlington fifteen minutes ahead, even after the Captain of the Sheridan *stole* our wood-boat at Skunk River.

Captain Hutchinson states "that the Sheridan subsequently *passed her rival under full headway*," all of which is false from beginning to end, and Captain Hutchinson knew it at the time. Knowing that the columns of a newspaper is not the place to settle the speed of boats, I only notice the above quotations because of the gross perversions of the truth which they contain. Yours truly,
W. P. HIGHT.

THE Memphis *Bulletin* of Tuesday has the following:

PERSONAL.—The present whereabouts of our old-time Memphis boatmen, particularly those who were engaged in the well-known line of New Orleans packets, so famous before the war, may not be an uninteresting item at this time. Among the first, we will mention Captain Wray, well known as commander of the Belfast for several seasons, died here during the war; Captain McDonald, formerly of the Ingomar, also died in Cuba several years ago of consumption; Captain Joe Clark, of the Benj. Franklin, Ingomar and Capitol, is now here, a guest of one of the hotels. Captain T. H. Newell, of the old H. R. W. Hill, is also here, having retired from the river; Captain Frank Hicks is off the river at present, and occupies his attention between his farm, near Bragg's Station, on the M. and C. R. R., and a plantation down in Arkansas, near Gaines's Landing. Captain Ervine, formerly of the Nebraska, is said to be in Cincinnati at present, having also retired from the river. Captain Jim Smith, formerly of the Simmonds, is at present clerk on the Robert E. Lee. Captain J. W. Goslee is in New Orleans, and until recently was engaged in the grocery trade. The old Tycoon of all—Captain Charles Church—is here, having entirely repudiated steamboats. He is at present enjoying an independence. Captain John Moody, formerly of the Victoria, has quit the river, and is now keeping a grocery here. Captain Mose Amber is now superintendent of the Louisville and Cincinnati line of packets. Captain Ed. Booker is living here, and has retired from the river. Elijah Perry has got married, and is now merchandising in Arkansas. Captain J. H. Freligh is Secretary of the Memphis Chamber of Commerce. Captain Press Lodwick, until lately, was running the Bostona between Cincinnati and Portsmouth. He has sold out and retired. Captain McManus is engaged in the real estate business here. Captain Marsh Miller, well-known during the war as commander of the gunboat Grampus, is now pilot on the Dan Able.
